PERFUME DESCRIPTION:

A multi-layered luxury amber opening with spices, citrus and rose, followed by a resinous floral heart and a dense base of amber, vanilla, benzoin, labdanum, oud and musk. A scent of stature, longevity and warmth.

PERFUME STORY:

The perfume is built like a luminous block of amber: not a flat amber, but one surrounded by wood, rose and resins to project high value and luxurious weight.

PERFUMER'S NOTE:

Contrast is the secret of this fragrance. Clean citrus air, pepper, and frankincense open the scene, then black tea and tanned leather enter with sudden weight, before oud, suede, and saffron settle at the base. I wanted a fragrance that does not start as it ends, nor end as you expect.
